*Recommended height: no more than 1 meter / 3' from ceiling

The Salvador Da Bahia lamp is Iris's most colourful design. Taking its name from "the" place to celebrate the annual rambunctious Carnival -- the Salvador Da Bahia lamp bursts with color.

Incorporating the LED lighting system, this lantern breaks the light into a rainbow when reflected up at the ceiling. Iris has taken a familiar technology and changed it into something decorative and unique. The lamp also has a birdlike design -- implying choice, liberty, and independence.

We believe that every Gay bar in the world should have it!
